

2022 Summer School in Social Research Methods

20 June – 1 July 2022

A **Methods Excellence Network (MethodsNET) Event**, hosted by Nijmegen School of Management, Radboud University, the Netherlands

World-class methods courses – and so much more

32 world-class PhD-level interactive courses spanning the full range of social scientific methods taught by top pedagogues, plus a rich cross-cutting afternoon academic program, Methods Cafes, and a variety of social events.

Foundational Courses

- Multi-method Research: Techniques and Applications
- Multi-method in Practice: Pluralist Case Study Designs
- Social Science Measurement: Designs, Models, and Strategies

Interpretive/Qualitative Approaches

- Interpretive Research Methods
- Political Language: Analyzing State-‘created’ Categories
- Qualitative Data Analysis
- Advanced Qualitative Data Analysis
- Qualitative Expert Interviews
- Digital Technologies in Qualitative Data Collection

Case-based/Comparative Approaches

- Comparative Research Designs
- Introduction to Qualitative Comparative Analysis (QCA)
- Advanced Applied Qualitative Comparative Analysis (QCA)
- Introduction to Process Tracing
- Process Tracing Methods in Practice
- Comparative Historical Analysis: How to Use History in Social Inquiry

Statistical Approaches

- Introduction to Inferential Statistics: The Class You Need Before Regression
- Introduction to R
- Survey and Questionnaire Design
- Doing Intersectional Quantitative Research
- Regression 1: Linear Regression
- Regression 2: Logistic Regression and General Linear Models: Binary, Ordered, Multinomial, and Count Outcomes
- Multilevel Regression Analysis of Cross-Sectional and Panel Data with R
- Panel Data Analysis
- Structural Equation Modeling
- Causal Inference in the Social Sciences
- Longitudinal Data Collection with the Diary Research App: DearScholar

Big Data Courses

- Collecting Web Data with R
- Applied Social Network Analysis
- Discourse Network Analysis
- Inferential Network Analysis
- Introduction to Quantitative Text Analysis
- Introduction to Machine Learning for Social Sciences

Registration includes course, lunch,
and afternoon academic program •
Competitive fees • Early bird discounts
